

Core Values Policy

Review Date:

Introduction

At our preschool, our values are more than words—they are the foundation of how we educate, care for, and relate to children, families, the community, and each other, and how we keep children safe. By embedding these values into every aspect of our service, we create a community that fosters belonging, wellbeing, growth, and lifelong learning. Our educators uphold these values through professional and ethical practice, consistent with the **Early Years Learning Framework (EYLF V2.0)** and the **National Quality Standards (NQS)**.

Purpose

This policy outlines how our core values—**Education, Kindness, Inclusion, Respect, and Integrity**—shape our service culture, guide our interactions, and support high standards of **professionalism** among staff. It ensures that all educators, children, families, and stakeholders experience a safe, respectful, and values-driven environment.

These Core Values were developed by a group of diverse parents, educators and community members, who were specifically invited to gather input from all stakeholders, and develop values together, that were important and relevant to our preschool community.
