

Mission Statement

Evans Head Pre School Association provides quality Community Based, Not For Profit Education and Care for children (3 - 5 years), their families and for staff.

We are run for families by families in partnership with qualified educators. We value all members of our community for their individual voices and capabilities.

Through our relationships and community networks each sister service provides a learning environment that reflects its unique local community.

By promoting critical thinking, engaging children's natural curiosity and connecting them to their world, we collaborate to understand and sustain that world.

Our desire to ***make the world a better place*** also calls us to advocate for the rights of children, families and educators.
